Surgical Site Infections Following Coronary Artery Bypass Grafting—Does “Never” Really Mean “Never”?

Harold L. Lazar, MD

PII: S0022-5223(18)30025-4

DOI: [10.1016/j.jtcvs.2017.12.110](https://doi.org/10.1016/j.jtcvs.2017.12.110)

Reference: YMTC 12458

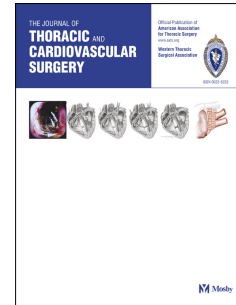

To appear in: *The Journal of Thoracic and Cardiovascular Surgery*

Received Date: 13 December 2017

Accepted Date: 20 December 2017

Please cite this article as: Lazar HL, Surgical Site Infections Following Coronary Artery Bypass Grafting—Does “Never” Really Mean “Never”?, *The Journal of Thoracic and Cardiovascular Surgery* (2018), doi: 10.1016/j.jtcvs.2017.12.110.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Surgical Site Infections Following Coronary Artery Bypass Grafting—Does “Never” Really Mean “Never”?
