Accepted Manuscript

Functional Anatomy and Pathophysiologic Principles in Mitral Regurgitation: Non-invasive Assessment

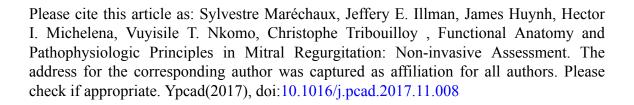

Sylvestre Maréchaux, Jeffery E. Illman, James Huynh, Hector I. Michelena, Vuyisile T. Nkomo, Christophe Tribouilloy

PII: S0033-0620(17)30161-5

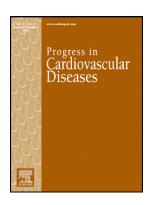

DOI: doi:10.1016/j.pcad.2017.11.008

Reference: YPCAD 850

To appear in:

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
