This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Seminars in Vascular Surgery

(Issue to be determined)

**EFFICACY OF CORD BLOOD PLATELET GEL APPLICATION
TO ENHANCE DIABETIC FOOT ULCER HEALING
AFTER LOWER LIMB REVASCULARIZATION**

AUTHORS: Pietro Volpe¹, MD; Daniela Marcuccio², MD; Giuseppe Stilo¹, MD; Antonino Alberti¹, MD; Giovanni Foti²; Alberto Volpe³, MD; Domenica Princi²; Rosangela Surace²; Giulia Pucci², MD; Mafalda Massara⁴, MD, PhD

AUTHORS AFFILIATION:

1 Unit of Vascular Surgery, Bianchi-Melacrino-Morelli Hospital, Reggio Calabria - Italy

2 Calabria Cord Blood Bank, Service of Immunohaematology and Transfusion Medicine, Bianchi-Melacrino-Morelli Hospital, Reggio Calabria - Italy

3 University Campus Biomedico of Rome, Rome - Italy

4 Unit of Vascular and Endovascular Surgery, SS Annunziata Hospital, Taranto - Italy

CORRESPONDING AUTHOR:

Mafalda Massara, MD, PhD

Address: Via Leonida 49, Taranto (Italy)
