Running title: Identification of CVST with MRV**Corresponding Author**

Gao Chen M.D, Ph.D.

Department of Neurosurgery, Second Affiliated Hospital, School of Medicine, Zhejiang University, 88 Jiefang Rd, Hangzhou, Zhejiang 310009, China. Tel: +8613805716226. E-mail: d-chengao@zju.edu.cn.

Liansheng Gao, Weilin Xu and Tao Li have equally contributed to this work as co-first authors.

Conflict of interests:

The authors report no conflict of interests to declare.

Source of funding:

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Highlights:

- CVST is a rare but lethal cerebrovascular disease. Early diagnosis and proper treatment could remarkably improve prognosis.
- MRV has excellent diagnostic performance and is effective in confirming CVST.
- The elliptic centric MRV has high spatial resolution and definition for clinical use.
