Title: The Multi-Faceted Relationship between White Matter Lesions and Late-Life Depression

Author: Minjie Wu, Howard J. Aizenstein

PII: S1064-7481(17)30466-9

DOI: <https://doi.org/doi:10.1016/j.jagp.2017.09.017>

Reference: AMGP 931

To appear in: *The American Journal of Geriatric Psychiatry*

Received date: 13-9-2017

Accepted date: 14-9-2017

Please cite this article as: Minjie Wu, Howard J. Aizenstein, The Multi-Faceted Relationship between White Matter Lesions and Late-Life Depression, *The American Journal of Geriatric Psychiatry* (2017), <https://doi.org/doi:10.1016/j.jagp.2017.09.017>.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The multi-faceted relationship between white matter lesions and late-life depression

Minjie Wu, PhD,¹ Howard J. Aizenstein, MD, PhD²
