

## Accepted Manuscript

The neurologic control of arousal and orgasm with specific attention to spinal cord lesions: Integrating preclinical and clinical sciences

Marcallee Sipski Alexander, Lesley Marson

PII: S1566-0702(17)30011-5

DOI: doi: [10.1016/j.autneu.2017.01.005](https://doi.org/10.1016/j.autneu.2017.01.005)

Reference: AUTNEU 1914

To appear in: *Autonomic Neuroscience: Basic and Clinical*

Received date: 27 September 2016

Revised date: 9 December 2016

Accepted date: 23 January 2017

Please cite this article as: Marcallee Sipski Alexander, Lesley Marson , The neurologic control of arousal and orgasm with specific attention to spinal cord lesions: Integrating preclinical and clinical sciences. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Autneu*(2017), doi: [10.1016/j.autneu.2017.01.005](https://doi.org/10.1016/j.autneu.2017.01.005)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
