

## Accepted Manuscript

Thoracic spinal cord and cervical vagosympathetic neuromodulation obtund nodose sensory transduction of myocardial ischemia

Siamak Salavatian, Eric Beaumont, David Gibbons, Matthew Hammer, Donald B. Hoover, J. Andrew Armour, Jeffrey L. Ardell

PII: S1566-0702(17)30147-9  
DOI: doi: [10.1016/j.autneu.2017.08.005](https://doi.org/10.1016/j.autneu.2017.08.005)  
Reference: AUTNEU 1962

To appear in: *Autonomic Neuroscience: Basic and Clinical*

Received date: 8 June 2017  
Revised date: 7 August 2017  
Accepted date: 16 August 2017

Please cite this article as: Siamak Salavatian, Eric Beaumont, David Gibbons, Matthew Hammer, Donald B. Hoover, J. Andrew Armour, Jeffrey L. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Thoracic spinal cord and cervical vagosympathetic neuromodulation obtund  
nodose sensory transduction of myocardial ischemia**

Siamak Salavatian<sup>1,2</sup>, Eric Beaumont<sup>3,4</sup>, David Gibbons<sup>3</sup>, Matthew Hammer<sup>1</sup>, Donald B. Hoover<sup>3,4</sup>, J. Andrew Armour<sup>1,2</sup> and Jeffrey L. Ardell<sup>1,2</sup>

*Running title:* Autonomic neuromodulation impacts nodose transduction

*Key words:* Nodose sensory neuron; myocardial ischemia; spinal cord stimulation; vagus nerve stimulation; cardiac nervous system

Words: 7978

*Author to whom correspondence should be addressed:*

Jeffrey L. Ardell, Ph.D.

UCLA Neurocardiology Research Program of Excellence
