Evidence of transcranial direct current stimulation-generated electric fields at subthalamic level in human brain *in vivo*

Pratik Y. Chhatbar, Steven A. Kautz, Istvan Takacs, Nathan C. Rowland, Gonzalo J. Revuelta, Mark S. George, Marom Bikson, Wuwei Feng

PII: S1935-861X(18)30089-5

DOI: [10.1016/j.brs.2018.03.006](https://doi.org/10.1016/j.brs.2018.03.006)

Reference: BRS 1214

To appear in: *Brain Stimulation*

Received Date: 22 December 2017

Revised Date: 28 February 2018

Accepted Date: 8 March 2018

Please cite this article as: Chhatbar PY, Kautz SA, Takacs I, Rowland NC, Revuelta GJ, George MS, Bikson M, Feng W, Evidence of transcranial direct current stimulation-generated electric fields at subthalamic level in human brain *in vivo*, *Brain Stimulation* (2018), doi: 10.1016/j.brs.2018.03.006.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **Evidence of transcranial direct current stimulation-generated Electric Fields at Subthalamic Level in Human Brain *in vivo***
