This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

External Fixation and Surgical Fusion for Pediatric Cervical Spine Injuries: Short-Term Outcomes

Taylor E. Purvis BA¹, Rafael De la Garza-Ramos MD², Nancy Abu-Bonsrah BS¹, C. Rory Goodwin MD, PhD³, Mari L. Groves MD¹, Michael C. Ain MD⁴, Daniel M. Sciubba MD¹

¹Department of Neurosurgery, The Johns Hopkins University School of Medicine, Baltimore, MD, USA

²Department of Neurological Surgery, Montefiore Medical Center/Albert Einstein College of Medicine, New York, New York

³Department of Neurosurgery, Duke University Medical Center, Durham, North Carolina, USA

⁴Department of Orthopaedic Surgery, The Johns Hopkins University School of Medicine, Baltimore, MD, USA.

The manuscript submitted does not contain information about medical device(s)/drug(s). No funds were received in support of this work. The authors have no conflicts of interest.

General disclosures unrelated to the present work:

Taylor E. Purvis: None.

Rafael De la Garza Ramos: None.

Nancy Abu-Bonsrah: None.

C. Rory Goodwin is a UNCF Merck Postdoctoral Fellow and has received an award from the Burroughs Wellcome Fund and the Johns Hopkins Neurosurgery Pain Research Institute.

Mari L. Groves: None.

Michael C. Ain receives royalties from LANX, speakers bureau/paid presentations for Stryker, paid consultant for Stryker, other financial or material support from Stryker, medical/orthopaedic publications editorial/governing board for *Orthopedics*, and board member/committee appointments for Scoliosis Research Society.

Daniel M. Sciubba has consulting relationships with Medtronic, Globus, DePuy, and Stryker.
