Title: Prediction of Persistent Hemodynamic Depression after Carotid Angioplasty and Stenting using Artificial Neural Network Model

Authors: Jin Pyeong Jeon, Chulho Kim, Byoung-Doo Oh, Sun Jeong Kim, Yu-Seop Kim

PII: S0303-8467(17)30341-4
DOI: <https://doi.org/10.1016/j.clineuro.2017.12.005>
Reference: CLINEU 4850

To appear in: *Clinical Neurology and Neurosurgery*

Received date: 11-10-2017
Revised date: 13-11-2017
Accepted date: 3-12-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Prediction of Persistent Hemodynamic Depression after Carotid Angioplasty and Stenting using Artificial Neural Network Model

Running title: Persistent hemodynamic depression after CAS
