Letter to the Editor

Exaggerated startle in Post-Infectious Opsoclonus Myoclonus syndrome

Daniel J Blackburn, Mhairi Forbes, Zoe Unwin, Nigel Hoggard, Marios Hadjivassiliou, Ptolemaios G Sarrigiannis

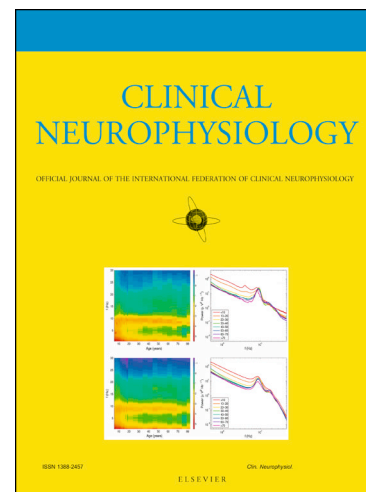

PII: S1388-2457(18)30282-7

DOI: <https://doi.org/10.1016/j.clinph.2018.03.026>

Reference: CLINPH 2008486

To appear in: *Clinical Neurophysiology*

Accepted Date: 30 March 2018

Please cite this article as: Blackburn, D.J., Forbes, M., Unwin, Z., Hoggard, N., Hadjivassiliou, M., Sarrigiannis, P.G., Exaggerated startle in Post-Infectious Opsoclonus Myoclonus syndrome, *Clinical Neurophysiology* (2018), doi: <https://doi.org/10.1016/j.clinph.2018.03.026>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Exaggerated startle in Post-Infectious Opsoclonus Myoclonus syndrome
