

## Accepted Manuscript

Editorial

To warn or not to warn: A reappraisal of brainstem auditory evoked potential warning criteria during surgery

Aatif M. Husain

PII: S1388-2457(18)30091-9

DOI: <https://doi.org/10.1016/j.clinph.2018.02.001>

Reference: CLINPH 2008423

To appear in: *Clinical Neurophysiology*

Accepted Date: 1 February 2018

Please cite this article as: Husain, A.M., To warn or not to warn: A reappraisal of brainstem auditory evoked potential warning criteria during surgery, *Clinical Neurophysiology* (2018), doi: <https://doi.org/10.1016/j.clinph.2018.02.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**To warn or not to warn: A reappraisal of brainstem auditory evoked potential  
warning criteria during surgery**

Aatif M. Husain, M.D.
