

## Accepted Manuscript

Axonal excitability changes and acute symptoms of oxaliplatin treatment: *in vivo* evidence for slowed sodium channel inactivation

Rikke Heide, Hugh Bostock, Lise Ventzel, Peter Grafe, Joseph Bergmans, Anders Fuglsang-Frederiksen, Nanna B. Finnerup, Hatice Tankisi

PII: S1388-2457(17)31162-8  
DOI: <https://doi.org/10.1016/j.clinph.2017.11.015>  
Reference: CLINPH 2008347

To appear in: *Clinical Neurophysiology*

Accepted Date: 5 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
