This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Nerve conduction studies and EMG in carpal tunnel syndrome: do they add value?

Masahiro Sonoo, Daniel L. Menkes, Jeremy D.P. Bland, David Burke

Professor Masahiro **Sonoo**, Department of Neurology, Teikyo University School of Medicine, Kaga 2-11-1, Itabashi-ku, Tokyo 1738605, Japan.

Professor Daniel L. **Menkes**, Chair, Department of Neurology, Beaumont Health, Beaumont Neuroscience Building, Royal Oak, MI 48073

Dr. Jeremy D. P. **Bland**, East Kent Hospitals University NHS Foundation Trust, Ethelbert Road, Canterbury, Kent, UK

Professor David **Burke**, Department of Neurology, Royal Prince Alfred Hospital and University of Sydney, Sydney, Australia
