Basal Ganglia Mechanisms in Action Selection, Plasticity, and Dystonia

Jonathan W. Mink, MD PhD

PII: S1090-3798(17)32014-7

DOI: [10.1016/j.ejpn.2018.01.005](https://doi.org/10.1016/j.ejpn.2018.01.005)

Reference: YEJPN 2360

To appear in: *European Journal of Paediatric Neurology*

Received Date: 29 November 2017

Accepted Date: 8 January 2018

Please cite this article as: Mink JW, Basal Ganglia Mechanisms in Action Selection, Plasticity, and Dystonia, *European Journal of Paediatric Neurology* (2018), doi: 10.1016/j.ejpn.2018.01.005.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Basal Ganglia Mechanisms in Action Selection, Plasticity, and Dystonia
