Increasing beta-amyloid deposition in cognitively healthy aging predicts nonlinear change in BOLD modulation to difficulty

Kristen M. Kennedy, Chris M. Foster, Karen M. Rodrigue

PII: S1053-8119(18)30715-8

DOI: [10.1016/j.neuroimage.2018.08.017](https://doi.org/10.1016/j.neuroimage.2018.08.017)

Reference: YNIMG 15178

To appear in: *NeuroImage*

Received Date: 28 May 2018

Revised Date: 23 July 2018

Accepted Date: 9 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Abbreviated Title:** Effect of nonlinear amyloid on BOLD modulation

**Increasing beta-amyloid deposition in cognitively healthy aging predicts nonlinear  
change in BOLD modulation to difficulty**

Kristen M. Kennedy\*, Chris M. Foster, Karen M. Rodrigue
