Alignment of alpha-band desynchronization with syntactic structure predicts successful sentence comprehension

Benedict Vassileiou, Lars Meyer, Caroline Beese, Angela D. Friederici

PII: S1053-8119(18)30296-9

DOI: [10.1016/j.neuroimage.2018.04.008](https://doi.org/10.1016/j.neuroimage.2018.04.008)

Reference: YNIMG 14855

To appear in: *NeuroImage*

Received Date: 19 September 2017

Revised Date: 3 April 2018

Accepted Date: 5 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Alignment of Alpha-Band Desynchronization with Syntactic Structure
Predicts Successful Sentence Comprehension**
