Cortical parcellation based on structural connectivity: A case for generative models

Marc Tittgemeyer, Lionel Rigoux, Thomas R. Knösche

PII: S1053-8119(18)30077-6

DOI: 10.1016/j.neuroimage.2018.01.077

Reference: YNIMG 14690

To appear in: *NeuroImage*

Received Date: 13 June 2016

Revised Date: 26 January 2018

Accepted Date: 29 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
