Comparison of two integration methods for dynamic causal modeling of electrophysiological data

Jean-Didier Lemaréchal, Nathalie George, Olivier David

PII: S1053-8119(18)30128-9

DOI: [10.1016/j.neuroimage.2018.02.031](https://doi.org/10.1016/j.neuroimage.2018.02.031)

Reference: YNIMG 14732

To appear in: *NeuroImage*

Received Date: 11 November 2017

Revised Date: 21 January 2018

Accepted Date: 16 February 2018

Please cite this article as: Lemaréchal, J.-D., George, N., David, O., Comparison of two integration methods for dynamic causal modeling of electrophysiological data, *NeuroImage* (2018), doi: 10.1016/j.neuroimage.2018.02.031.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
