

## Accepted Manuscript

Reduced fractional anisotropy in patients with major depressive disorder and associations with vascular stiffness

Marco Hermesdorf, Klaus Berger, András Szentkirályi, Wolfram Schwindt, Udo Dannlowski, Heike Wersching

PII: S2213-1582(17)30013-X  
DOI: doi: [10.1016/j.nicl.2017.01.013](https://doi.org/10.1016/j.nicl.2017.01.013)  
Reference: YNICKL 923

To appear in: *NeuroImage: Clinical*

Received date: 21 September 2016  
Revised date: 19 December 2016  
Accepted date: 15 January 2017

The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Ynicl*(2017), doi: [10.1016/j.nicl.2017.01.013](https://doi.org/10.1016/j.nicl.2017.01.013)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Reduced fractional anisotropy in patients with major depressive disorder and associations with vascular stiffness**

**Running title: Depression-related reductions in fractional anisotropy**
