This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cx43 in dystrophic cardiomyopathy

Normalization of connexin 43 protein levels prevents cellular and functional signs of dystrophic cardiomyopathy in mice.

J. Patrick Gonzalez¹, Jayalakshmi Ramachandran², Eric Himelman¹, Myriam A. Badr^{2*}, Chifei Kang², Julie Nouet¹, Nadezhda Fefelova¹, Lai-Hua Xie¹, Natalia Shirokova^{2#}, Jorge E. Contreras^{2#}, Diego Fraidenraich^{1#}
