Key words: Extravascular papillary endothelial hyperplasia, Masson's hemangioma radiotherapy, stereotactic radiosurgery

Abbreviations list:

CNS – central nervous system

Cs-131 – cesium-131

EPEH – extravascular papillary endothelial hyperplasia

LINAC – linear accelerator

MRI – magnetic resonance imaging

PAH – papillary endothelial hyperplasia

VEGF-C – vascular endothelial growth factor C

WHO – World Health Organization

Declaration of interests: none

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.
