³ The University of Texas Southwestern Department of Radiology

Running Title: IVC filter migration to the spine

Conflict of interest Statement:

The authors have no conflicts of interest to report

Disclosure of funding statement:

There was no funding for the redaction of this case report

IRB compliance statement:

This Case report was written in compliance with our institutional ethical review board

IRB approval was waived in light of the retrospective and de-identified nature of the data presented in accordance with the UTSW IRB.

Keywords:

Inferior vena cava filter – Migration – Discitis -Osteitis – IVC filter complication

Corresponding author:
