This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Brain Abscess of the Basal Ganglia Presenting with Persistent Hiccups: A Case Report**

Jared Sweeney, BS, Alexa Bodman, MD, and Walter A. Hall, MD

Department of Neurosurgery, SUNY Upstate Medical University, Syracuse, NY

**CORRESPONDING AUTHOR**

Walter A. Hall, MD

Professor, Department of Neurosurgery

SUNY Upstate Medical University

750 E Adams St

Syracuse, NY 13210

Phone: (315) 454-5511

Fax: (315) 470-7963

E-mail: [hallw@upstate.edu](mailto:hallw@upstate.edu)

**KEYWORDS** Singultus; Intractable Hiccups; Brain Abscess; Basal Ganglia Lesion

**ABBREVIATIONS**

Persistent Intractable Hiccups (PIH), Magnetic Resonance Imaging (MRI), Central Nervous System (CNS)
