An unusual case of ureteral perforation in minimally invasive pedicle screw instrumentation and review of the literature

Edward Fomekong, MD, Julien Pierrard, MS, Etienne Danse, MD, PhD, Bertrand Tombal, MD, PhD, Christian Raftopoulos, MD, PhD

PII: S1878-8750(17)32108-3

DOI: [10.1016/j.wneu.2017.11.175](https://doi.org/10.1016/j.wneu.2017.11.175)

Reference: WNEU 7006

To appear in: *World Neurosurgery*

Received Date: 18 September 2017

Revised Date: 27 November 2017

Accepted Date: 30 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **An unusual case of ureteral perforation in minimally invasive pedicle screw**
2 **instrumentation and review of the literature**
