**ABSTRACT**

**Objective** To observe the comprehensive curative effect of acupuncture manipulation of regulating governor vessel and unblocking brain for post stroke depression associated with anxiety.

**Methods** Sixty-four patients with post stroke depression associated with anxiety were randomly divided into 2 groups according to the random numbers generated by spss16.0 software, the group of acupuncture manipulation of regulating governor vessel and unblocking brain (group A) and medication group (group B), with 32 patients in each group. Acupuncture manipulation of regulating governor vessel and unblocking brain was performed in group A, Bǎihuì (百会 GV 20), Shéntíng (神庭 GV 24), Yǎmén (哑门 GV 15) and Dànzhōng (膻中 CV 17), Gǎnshū (肝俞 BL 18), Xīnshū (心俞 BL 15), Shènsū (肾俞 BL 23), Tàichōng (太冲 LR 3), Tàixī (太溪 KI 3),
