The influence of concomitant medial wall fracture on the results of orbital floor reconstruction

Agata Joanna Ordon, Marcin Kozakiewicz, DDS, PhD, MD, PhD Michal Wilczynski, Piotr Loba, MD, PhD

PII: S1010-5182(18)30018-0

DOI: [10.1016/j.jcms.2018.01.005](https://doi.org/10.1016/j.jcms.2018.01.005)

Reference: YJCMS 2889

To appear in: *Journal of Cranio-Maxillo-Facial Surgery*

Received Date: 25 August 2017

Revised Date: 2 January 2018

Accepted Date: 18 January 2018

Please cite this article as: Ordon AJ, Kozakiewicz M, Wilczynski 1 M, Loba P, The influence of concomitant medial wall fracture on the results of orbital floor reconstruction, *Journal of Cranio-Maxillofacial Surgery* (2018), doi: 10.1016/j.jcms.2018.01.005.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
