## **Accepted Manuscript**

Incidence and morphometry of sellar bridges and related foramina in dry skulls: Their significance in middle cranial fossa surgery

Konstantinos Natsis, Maria Piagkou, Nikolaos Lazaridis, Trifon Totlis, Nikolaos Anastasopoulos, Jannis Constantinidis

PII: \$1010-5182(18)30021-0

DOI: 10.1016/j.jcms.2018.01.008

Reference: YJCMS 2892

To appear in: Journal of Cranio-Maxillo-Facial Surgery

Received Date: 21 September 2017
Revised Date: 16 December 2017
Accepted Date: 22 January 2018

Please cite this article as: Natsis K, Piagkou M, Lazaridis N, Totlis T, Anastasopoulos N, Constantinidis J, Incidence and morphometry of sellar bridges and related foramina in dry skulls: Their significance in middle cranial fossa surgery, *Journal of Cranio-Maxillofacial Surgery* (2018), doi: 10.1016/j.jcms.2018.01.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## ACCEPTED MANUSCRIPT

Incidence and morphometry of sellar bridges and related foramina in dry skulls: Their

significance in middle cranial fossa surgery

Konstantinos Natsis<sup>1a</sup>, Maria Piagkou<sup>2b</sup>, Nikolaos Lazaridis<sup>1c</sup>, Trifon Totlis<sup>1c</sup>, Nikolaos

Anastasopoulos<sup>1b</sup>, Jannis Constantinidis<sup>3a</sup>
