Title: Direct estimation of human trabecular bone stiffness using cone-beam computed tomography

Author: Eva Klintström, Benjamin Klintström, Dieter Pahr, Torkel Brismar, Örjan Smedby, Rodrigo Moreno

PII: S2212-4403(18)30861-7
DOI: <https://doi.org/10.1016/j.oooo.2018.03.014>
Reference: OOOO 1986

To appear in: *Oral Surgery, Oral Medicine, Oral Pathology and Oral Radiology*

Received date: 2-10-2017
Revised date: 4-3-2018
Accepted date: 16-3-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Direct Estimation of Human Trabecular Bone Stiffness Using Cone-Beam Computed Tomography
