

Accepted Manuscript

Sleep spindle and psychopathology characteristics of frequent nightmare recallers

Claudia Picard-Deland, Michelle Carr, Tyna Paquette, Kadia Saint-Onge, Tore Nielsen

PII: S1389-9457(17)30411-2

DOI: [10.1016/j.sleep.2017.10.003](https://doi.org/10.1016/j.sleep.2017.10.003)

Reference: SLEEP 3548

To appear in: *Sleep Medicine*

Received Date: 12 July 2017

Accepted Date: 2 October 2017

Please cite this article as: Picard-Deland C, Carr M, Paquette T, Saint-Onge K, Nielsen T, Sleep spindle and psychopathology characteristics of frequent nightmare recallers, *Sleep Medicine* (2017), doi: 10.1016/j.sleep.2017.10.003.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Sleep spindle and psychopathology characteristics of frequent nightmare recallers
