Melanoma risk prediction using a multi-locus genetic risk score in the Women's Health Initiative cohort

Hyunje G. Cho, BA, Katherine J. Ransohoff, MD, Lingyao Yang, MS, Haley Hedlin, PhD, Themistocles Assimes, MD, PhD, Jiali Han, PhD, Marcia Stefanick, PhD, Jean Y. Tang, MD, PhD, Kavita Y. Sarin, MD, PhD

PII: S0190-9622(18)30337-2

DOI: [10.1016/j.jaad.2018.02.052](https://doi.org/10.1016/j.jaad.2018.02.052)

Reference: YMJD 12359

To appear in: *Journal of the American Academy of Dermatology*

Received Date: 27 October 2017

Revised Date: 29 January 2018

Accepted Date: 11 February 2018

Please cite this article as: Cho HG, Ransohoff KJ, Yang L, Hedlin H, Assimes T, Han J, Stefanick M, Tang JY, Sarin KY, Melanoma risk prediction using a multi-locus genetic risk score in the Women's Health Initiative cohort, *Journal of the American Academy of Dermatology* (2018), doi: 10.1016/j.jaad.2018.02.052.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
