This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Abbreviations: VAF: variant allele frequency

NGS: next-generation sequencing
 P: pathogenic
 LP: likely pathogenic
 VUS: variant of unknown significance
 AVM: arteriovenous malformation
 PPV: phakomatosis pigmentovascularis
 FFPE: formalin-fixed paraffin embedded
 SNV: single nucleotide variation
 bp: base pairs
