The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Yajem(2017), doi:[10.1016/j.ajem.2018.04.041](https://doi.org/10.1016/j.ajem.2018.04.041)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title Page

We as authors would like to present a two-case report of patients presenting with tension hydrothoraxes managed in the ER department of our third level hospital. Here we provide chest x-rays prior to and following pleural decompression. We would like to request the evaluation of our article for publishing purposes.

Tension Hydrothorax: emergency decompression of a pleural cause of Cardiac tamponade
