Blood Pressure Variability in Early Sepsis Management

Blood Pressure Variability as an Indicator of Sepsis Severity in Adult Emergency Department Patients

Jacob E. Nouriel¹, BA

Scott R. Millis², PhD

Jonathon Ottolini¹, BA

John M. Wilburn¹, MD

Robert L. Sherwin¹, MD

James H. Paxton¹, MD, MBA

Corresponding Author: Jacob E. Nouriel Wayne State University School of Medicine 540 E. Canfield St. Detroit, MI 48201 jnouriel@med.wayne.edu

Funding:

Funding for this study was provided by Wayne State University School of Medicine and Vidacara / Teleflex Corporation.

Conflicts of Interests:

There are no conflicts of interest for the primary author or any of the co-authors.

Prior abstract publication/presentation:

This research has been presented (abstract) at the 2017 meeting for the Society of Critical Care Medicine, Honolulu, Hawaii, on January 23, 2017.

Keywords:

Sepsis, hemodynamic monitoring, and fluid resuscitation
