This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title

Achieving ventricular rate control in patients taking chronic beta-blocker therapy

Running Head

Achieving ventricular rate control

Authors

1. Megan E. Feeney, PharmD; Department of Pharmacy, Oregon Health & Science University
2. Sandra L. B. Rowe, PharmD, BCCCP; Department of Pharmacy, Oregon Health & Science University
3. Nathan D. Mah, PharmD; Department of Pharmacy, Oregon Health & Science University
4. Cassie A. Barton, PharmD, BCPS, BCCCP; Department of Pharmacy , Oregon Health & Science University
5. Ran Ran, MD; Department of Emergency Medicine, Oregon Health & Science University

Name and address of author to who reprint request should be sent

Sandra Rowe, PharmD, BCCCP
Department of Pharmacy
Oregon Health & Science University
3181 SW Sam Jackson Park Rd
Portland, OR 97239

Source(s) of support in the form of equipment, drugs, or grants (including grant numbers)

None

The name and organization and date of assembly if the article has been presented

American Society of Health-System Pharmacists 2015 Midyear Clinical Meeting, New Orleans, LA, December 6-10, 2015

Key Words

1. Atrial Fibrillation
2. Beta-Blocker
3. Calcium Channel Blocker
4. Metoprolol
5. Diltiazem
