Accepted Manuscript

Hemodynamic characteristics of suspected stroke in the emergency department

Joseph B. Miller, Richard M. Nowak, Brian P. Reed, Salvatore DiSomma, Prabath Nanayakkara, Michele Moyer, Scott Millis, Harish Kinni, Phillip Levy

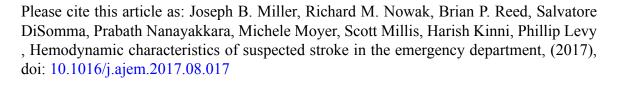

PII: S0735-6757(17)30664-2

DOI: doi: 10.1016/j.ajem.2017.08.017

Reference: YAJEM 56902

To appear in:

Received date: 28 March 2017 Revised date: 3 August 2017 Accepted date: 6 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Hemodynamic Characteristics of Suspected Stroke in the Emergency Department

Running head: Hemodynamic Characteristics of Stroke

Authors and affiliations:

- 1. Joseph B Miller, MD, MS, Department of Emergency Medicine, Henry Ford Health System, Detroit, Michigan
- 2. Richard M Nowak, MD, Department of Emergency Medicine, Henry Ford Health System, Detroit, Michigan
- 3. Brian P Reed, MS, Department of Biostatistics, Wayne State University, Detroit, Michigan
- 4. Salvatore DiSomma, MD, Department of Medical-Surgery Sciences and Translational Medicine, University Sapienza, Rome, Italy
- 5. Prabath Nanayakkara, MD, Section of Acute Medicine, Department of Internal Medicine, VU Medical Center, Amsterdam, Netherlands
- 6. Michele Moyer, BSN, CCRP, Department of Emergency Medicine, Henry Ford Health System, Detroit, Michigan, USA
- 7. Scott Millis, PhD, Department of Biostatistics, Wayne State University, Detroit, Michigan, USA
- 8. Harish Kinni, MD, Department of Emergency Medicine, Henry Ford Health System, Detroit, MI
- 9. Phillip Levy, MD, MPH, Departments of Emergency Medicine and Physiology and Cardiovascular Research Institute, Wayne State University, Detroit, Michigan, USA
