

## Accepted Manuscript

Title: Improving socket design to prevent difficult removal of locking screws

Authors: Chen-Huei Lin, Ching-Kong Chao, Yi-Hsuan Tang, Jinn Lin

PII: S0020-1383(18)30056-1  
DOI: <https://doi.org/10.1016/j.injury.2018.01.036>  
Reference: JINJ 7577

To appear in: *Injury, Int. J. Care Injured*

Accepted date: 31-1-2018

Please cite this article as: Lin Chen-Huei, Chao Ching-Kong, Tang Yi-Hsuan, Lin Jinn. Improving socket design to prevent difficult removal of locking screws. *Injury* <https://doi.org/10.1016/j.injury.2018.01.036>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
