What Can We Learn From Diabetes-Related YouTube Videos?

Running Head: Diabetes YouTube Videos

Benjamin K.P. Woo, MD [1]

[1] Asian Pacific Health Corps, University of California, Los Angeles, California, United States

Key Messages:

1) Health organizations should focus on producing YouTube videos with the age group in mind.
2) Health organizations should identify ways to address the cultural and language barriers to improve the quality of YouTube videos.

Keywords: YouTube

Word Counts: 360

Author Disclosures: The author declared no potential conflicts of interest with respect to the research, authorship and/or publication of this article.

Funding: The authors received no financial support for the research, authorship and/or publication of this article.
