**Acknowledgements:** This work was supported by the Buckeye Foundation, American Partnership for Eosinophilic Disorders (APFED) and Campaign Urging Research for Eosinophilic Disease (CURED). K08DK097721, internal funding from Ann and Robert H. Lurie Children's Hospital of Chicago, and CEGIR. Dr. Wechsler is a CEGIR trainee. CEGIR (U54 AI117804) is part of the Rare Disease Clinical Research Network (RDCRN), an initiative of the Office of Rare Diseases Research (ORDR), NCATS, and is funded through collaboration between NIAID, NIDDK, and NCATS. CEGIR is also supported by patient advocacy groups including APFED CURED and EFC.

**Disclosures:** There are no potential conflicts of interest for any of the authors pertaining to this study.

**Author contributions** (all have reviewed and approved the final draft of the manuscript)

Wechsler: Data acquisition; data analysis; data interpretation; manuscript drafting; critical revision

Bolton: Data acquisition; data analysis; data interpretation; manuscript drafting; critical revision

Amsden: Data acquisition.

Wershil: Manuscript drafting; critical revision.

Hirano: Manuscript drafting; critical revision.

Kagalwalla: Data acquisition; data analysis; data interpretation; manuscript drafting; critical revision; study supervision.
