This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Albumin Prevents Infections in Patients with Chronic Liver Failure in a Single-arm Feasibility Trial

Authors: Louise China¹ (LC), Simon S Skene² (SS), Zainib Shabir² (ZS), Alexander Maini¹ (AM), Yvonne Sylvestre² (YS), Kate Bennett² (KB), Scott Bevan (SB), James O'Beirne³ (JOB), Ewan Forrest⁴ (EF), Jim Portal⁶ (JP), Steve Ryder⁷ (SR), Gavin Wright⁵ (GW), Derek W Gilroy¹ (DWG), Alastair O'Brien¹ (AOB)

Institutions: ¹Division of Medicine, University College London; ² Comprehensive Clinical Trials Unit, University College London; ³Royal Free NHS Trust; ⁴ Glasgow Royal Infirmary; ⁵Basildon University Hospital; ⁶Bristol Royal Infirmary ; ⁷ Nottingham University Hospital. All UK

Contributions: LC performed the majority of the laboratory work and performed all laboratory analyses assisted by AM. SS provided statistical oversight and SS, YS and KB performed the statistical analyses for the clinical trial. ZS managed the clinical trial assisted by LC. SB, JOB, EF, GW, JP and SR all contributed to clinical design and management of the trial. AOB designed the clinical trial and AOB and DWG designed the laboratory experimental studies. All authors approved the final manuscript.
