This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Community Practice Implementation of a Self-administered Version of PREMM_{1,2,6} to Assess Risk for Lynch Syndrome

Short title: LS Screening in a Community Setting

Conflict of Interest: D.L. and J.D. are speakers and consultants for Myriad Genetic Laboratories, Inc. and received research support for the study presented here from Myriad Genetic Laboratories, Inc. At the time of this study and/or manuscript preparation, C.R., K.S., K.M., K.B., K.R., J.N., B.L.A., and R.J.W. were employees of Myriad Genetic Laboratories, Inc., a company that provides Lynch syndrome testing. M.B.Y. receives research support from Myriad Genetic Laboratories, Inc. S.S. is a consultant of Myriad Genetic Laboratories, Inc. All germline genetic testing performed in this study was donated by Myriad Genetic Laboratories, Inc.

Myriad Genetics provided partial support of the study, and employees from the company were involved in data analysis and interpretation. These individuals are included as co-authors and their roles are specified below.

Author contributions: D.L., J.D., C.R., D.S., F.K., R.J.W., and S.S. contributed to the study design and manuscript writing. K.M. and M.B.Y. contributed to data analysis. K.B. and M.B.Y. contributed to manuscript writing. K.R., D.Z., K.G., E.S., and J.N. contributed to data collection. M.M.O. and M.R. contributed to data collection and analysis. All authors read and approved the final manuscript.
