A rare cause of a left abdominal liver mass

Ashraf A. Ashhab, Dupinder Singh, Jose D. Debes

PII: S0016-5085(18)30117-3
DOI: [10.1053/j.gastro.2017.11.287](https://doi.org/10.1053/j.gastro.2017.11.287)
Reference: YGAST 61661

To appear in: *Gastroenterology*
Accepted Date: 17 November 2017

Please cite this article as: Ashhab AA, Singh D, Debes JD, A rare cause of a left abdominal liver mass, *Gastroenterology* (2018), doi: 10.1053/j.gastro.2017.11.287.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A rare cause of a left abdominal liver mass

Ashraf A. Ashhab¹, Dupinder Singh², Jose D. Debes^{1,2}

1) Department of Medicine, Gastroenterology and Hepatology, Hennepin County Medical Center, Minneapolis, MN

2) Department of Medicine, Gastroenterology and Hepatology, University of Minnesota, Minneapolis, MN

***Corresponding author:** Jose D. Debes, Department of Medicine, University of Minnesota. 2001 6th St. SE, R3-226, Minneapolis, MN, 55455. Ph: +16126256353.
Email: debes003@umn.edu

***Roles Played by authors:**

- Ashraf Ashhab: wrote the manuscript.
- Dupinder Singh: Helped with writing the manuscript and prepared the figures.
- Jose Debes: Edited the manuscript and provided critical mentoring to write the manuscript.

***There was no financial support for this study.**

***None of the authors have any conflict of interests.**
