### Grant support:

There was no external funding for this study.

### Disclosures:

The authors declare no conflicting interests.

### Abbreviations:

CI (Confidence interval); CRC (Colorectal cancer); FIT (Faecal immunochemical test); FOBT (Faecal occult blood test); ICD (International classification of disease); RR (Relative risk); UICC (Union for International Cancer Control)

### Author Contributions:

MBL, SN and BA designed the study. MBL, SN and PI categorised the data; and MBL analysed the data, created the tables and figures and drafted the manuscript. All of the contributors critically reviewed and approved the manuscript.

### Word counts:

Abstract: 372

Core text: 3,607

Figures/tables:2/2

### Funding

There was no external funding for this study.

### Declaration of interests
