This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

CSA13 inhibits *C. difficile* infection

Ceragenin CSA13 Reduces *Clostridium difficile* Infection in Mice by Modulating the Intestinal Microbiome and Metabolites

**Short title:** CSA13 inhibits *C. difficile* infection

Jiani Wang, MD <sup>1,3</sup>, postdoctoral researcher

Sally Ghali, MD <sup>1</sup>, postdoctoral researcher

Chunlan Xu, PhD <sup>1,4</sup>, postdoctoral researcher

Caroline C. Mussatto, BS <sup>1</sup>, undergraduate research student

Christina Ortiz, BS <sup>1</sup>, undergraduate research student

Elaine C. Lee, BS <sup>1</sup>, undergraduate research student

Diana H. Tran, BS <sup>1</sup>, undergraduate research student

Jonathan P. Jacobs, MDPH <sup>1</sup>, assistant professor

Venu Lagishetty, PhD <sup>1</sup>, postdoctoral researcher

Kym F. Faull, PhD <sup>5</sup>, professor

Travis Moller BS <sup>5</sup>, research assistant

Maura Rossetti PhD <sup>6</sup>, assistant professor

Xinhua Chen PhD <sup>2</sup>, assistant professor

Hon Wai Koon PhD <sup>1</sup>, associate professor \*
