Author's contribution

GD De Palma: conception and design; analysis and interpretation of the data; drafting of the article; critical revision of the article for important intellectual content; final approval of the article

MC Giglio: conception and design; analysis and interpretation of the data; drafting of the article; critical revision of the article for important intellectual content; final approval of the article

D Bruzzese: analysis and interpretation of the data; statistical analysis; final approval of the article

N. Gennarelli: acquisition of data; analysis and interpretation of the data; drafting of the article; final approval of the article

F. Maione: acquisition of data; analysis and interpretation of the data; drafting of the article; final approval of the article

S. Siciliano: acquisition of data; analysis and interpretation of the data; drafting of the article; final approval of the article

B. Manzo: acquisition of data; analysis and interpretation of the data; drafting of the article; final approval of the article

G. Cassese: acquisition of data; analysis and interpretation of the data; drafting of the article; final approval of the article

G. Luglio: critical revision of the article for important intellectual content; final approval of the article

None of the Authors received financial support for this paper.
