

# Accepted Manuscript

Transmural Ablation of the Normal Porcine Common Bile Duct with Catheter-Directed Irreversible Electroporation is Feasible and Does Not Impact Duct Patency

Eisuke Ueshima, MD PhD, Mark Schattner, MD, Robin Mendelsohn, MD, Hans Gerdes, MD, Sebastien Monette, DVM MVSc, Haruyuki Takaki, MD PhD, Jeremy C. Durack, MD MS, Stephen B. Solomon, MD, Govindarajan Srimathveeravalli, PhD

PII: S0016-5107(17)31886-2

DOI: [10.1016/j.gie.2017.05.004](https://doi.org/10.1016/j.gie.2017.05.004)

Reference: YMGE 10566

To appear in: *Gastrointestinal Endoscopy*

Received Date: 21 February 2017

Accepted Date: 1 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
