Electronic word count: 5608 words; 1 graphical abstract, 5 figures, 2 tables, 5 supplemental figures, 2 supplemental tables.

Key words: Platelets, Serotonin, Liver cancer, Liver regeneration, Tumor recurrence

No funding was received for this work. No conflicts of interest for any author.

All authors were involved in the process of study design data collection, evaluation and interpretation, and manuscript revision. Study supervision was mainly conducted by Starlinger, Grünberger, Brostjan and Assinger. Drafting and finalisation of the manuscript was accomplished by Padickakudy, Pereyra and Starlinger.
