This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## **An Enhanced Recovery Program for Bariatric Surgical Patients Significantly Reduces Perioperative Opioid Consumption and Postoperative Nausea**

Adam B. King, MD

Assistant Professor of Anesthesiology

Department of Anesthesiology

Vanderbilt University Medical Center

2301 Vanderbilt University Hospital

Nashville, TN 37232

P: 615-936-2454

F: 615-936-7059

Adam.b.king@vanderbilt.edu

Contribution: Adam King participated in the study design, conducted the study, performed data analysis and its interpretation, and was involved in manuscript preparation.

Matthew D. Spann, MD

Assistant Professor of Surgery

Department of Surgical Science

Vanderbilt University Medical Center

2301 Vanderbilt University Medical Center

Nashville, TN 37232

Contribution: Matthew Spann participated in the study design, conducted the study, performed data analysis and its interpretation, and was involved in manuscript preparation.

Patrick Jablonski, PhD

Sr. Statistical Analyst

Department of Anesthesiology

Vanderbilt University Medical Center

1211 21<sup>st</sup> Avenue South, #708

Nashville, TN 37212

Contribution: Patrick Jablonski performed data analysis and its interpretation, and was involved in manuscript preparation.

Jonathan P. Wanderer, MD, MPhil

Assistant Professor of Anesthesiology

Department of Anesthesiology

Vanderbilt University Medical Center

4648 Vanderbilt University Hospital

Nashville, TN 37232

Contribution: Jonathan Wanderer participated in the study design, performed data analysis and its interpretation, and was involved in manuscript preparation.

Warren S. Sandberg, MD, PhD

Professor of Anesthesiology, Surgery and Biomedical Informatics
