This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## RENAL AMYLOIDOSIS

Jason Kidd and Daniel E. Carl

Running Title: Renal Amyloidosis

Corresponding author: Jason Kidd M.D.  
Title: Assistant Professor of Medicine  
Address: MCV Box 980160  
Richmond, VA 23298-160  
Phone: (804) 828 9862  
Fax: (804) 828 7567  
Email: jason.kidd@vcuhealth.org

## Affiliations:

1. Div. of Nephrology, Dept. of Internal Medicine, Virginia Commonwealth University School of Medicine, Richmond, VA

Grant/Financial Support: none

Conflicts of Interest: Both authors have no Conflicts of Interest to report.

This is original work and is not under consideration for publication elsewhere.

**This submission is for the special issue being compiled by Beata Holkova on the topic Amyloidosis**

## ABBREVIATIONS

Angiotensin converting enzyme inhibitors (ACEi)  
end stage renal disease (ESRD)  
estimated glomerular filtration rates (eGFR)  
free light chain (FLC)  
periodic acid schiff (PAS)  
renin-angiotensin-aldosterone (RAAS)  
serum amyloid P (SAP)
