

## Accepted Manuscript

Use of a Rapid Reverse-transcription Recombinase Aided Amplification Assay for Respiratory Syncytial Virus Detection

Chen Chen, Xin-na Li, Gui-xia Li, Li Zhao, Su-xia Duan, Teng-fei Yan, Zhi-shan Feng, Xue-jun Ma

PII: S0732-8893(17)30316-4  
DOI: doi: [10.1016/j.diagmicrobio.2017.10.005](https://doi.org/10.1016/j.diagmicrobio.2017.10.005)  
Reference: DMB 14439

To appear in: *Diagnostic Microbiology and Infectious Disease*

Received date: 27 July 2017  
Revised date: 22 September 2017  
Accepted date: 11 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
